After a grueling 4 day trial Feb. 21-24th -- we -- the 6 Red Rose Rescuers -- including me -- your CPLS director--were all found guilty of multiple charges by the 6 person jury - - that even included a devout Orthodox Jewish woman -- who told the judge she had to be out of court by sundown for the Sabbath. We tried to defend a baby like this one:

Aborted at 16 weeks. Found in trash of Vital Med Laboratory, 1988

**OUR GREAT GRATITUDE GOES OUT TO ATTORNEY ROBERT MUISE OF THE AMERICAN FREEDOM LAW CENTER.** He DID all that he could to persuade the jury, with very strong arguments why we were not guilty of trespass, obstruction of an officer, and interference with business relations. Indeed, myself and Laura Gies were at least found "Not Guilty" on this latter charge. But without a "defense of others", or a "defense of necessity" we were forced to base our case on technicalities of the law. For instance, did the off duty (that's right!) security guard Cornelius McNeal have authority over the hallway outside the

Northland Family Planning killing center in Southfield to warn us that we were trespassing and told to leave??? After all, ***he works for the death mill***, not the building owner Nick Chand.

From Left to Right: Atty. Robert Muise, Jacob Gregor, Matthew Connolly, Monica Miller, Fr. Fidelis Moscinski, Elizabeth Wagi, and Laura Gies

By the time we were arrested, all of us were in the hallway OUTSIDE of the death mill-- as Fr. Fidelis, Jacob Gregor and Elizabeth Wagi had already been assaulted by the security guards and literally ***thrown out*** of the death mill. But in the hallway women were still coming in for their appointments--so yes, we could still reach out to them prior to our arrests!

**Why are we "GUILTY"? -- because the unborn count for NOTHING!** In the court of law, it's as if they don't even exist. No violence against them is recognized by the system--and Judge Cynthia Arvant certainly was not going to do anything bold to rectify this LIE! ***So-- we are honored to be found guilty***--as we tried to help the women scheduled for abortion-- and defended the unwanted. ***And so, we are now in solidarity with them*** -- what a way to start LENT! Indeed the second day of our trial was Ash Wednesday. We all wore very obvious ashes on our

forehead -- expecting that Judge Arvant would force us to remove them-- BUT ok-- she didn't !! You know, the ashes might prejudice the jury in our favor??? In any case, we would NOT have removed the ashes!

Our sentencing is March 30th, 8:30am, Judge Arvant's court 26000 Evergreen Rd. Southfield, MI **PLEASE COME!!**

**And PLEASE PRAY!! Pray that at least in the sentencing-- there will be a modicum of justice !!**

***On April 23, 2023 Six pro-lifers participated in a Red Rose Rescue at the Northland Family Planning killing center in Southfield, MI.***

***Three of the rescuers - Fr. Fidelis Moscinski, Elizabeth Wagi and Jacob Gregor actually entered the killing center and quietly attempted to talk to women already seated in the waiting room, urging them to choose life, offering help to them and red roses as a sign of life and peace.***

***Three other rescuers including your CPLS director Monica Miller, with Laura Gies and Matthew Connolly remained in the hallway and basically conducted the equivalent of sidewalk counseling to all moms getting off the elevator.***

***The three rescuers in the killing center were physically assaulted by the 2 security guards who physically threw the pro-lifers out of the killing center--and then one of them, Stanley Anderson, actually laid his 200 pound body on top of Fr. Fidelis!!***

***Police arrived eventually. We were all placed under arrest when we told the police that as long as unborn children's lives were about to be exterminated, we could not leave the building.***

***We have been charged with trespassing and "interference with a business" -- I know, an odd law and odd charge, plus "obstruction of an officer" simply because we refused to "obey" the order to leave.***
